Forecast for Wednesday 16 Jun 2021

Weather: Rain overnight will become light and patchy. Low cloud will lift and clear leave a bright day with some sunny spells for all. Cloud is likely to return later in the day for the southern ranges around Loch Lomond and Arrochar but it should stay mainly dry in the evening.

Chance of cloud free mountain/hill tops above 800m: 30% at the start of the day improving to 95% during the morning but further low cloud later will drop the likelihood to 60% in the evening. Low cloud is in association with the weak weather front across the area.

Visibility: Extensive cloud above 500m in the morning will gradually lift and clear. In the afternoon there will just be patches in the west around 800m. During the evening some low cloud will re-form especially around the more southeastern hills. General visibility will be good during the day.

Met Office Aberdeen Meteorologist's View

Southwesterly gales easing during the morning, noticeable wind chill in association with strong winds and freezing level falling to just above the summits early on Wednesday morning.

Forecast for Thursday 17 Jun 2021

Weather: A cloudy start to the day, there is the risk of one or two showers for eastern ranges but otherwise it will be generally dry although cloudy at times. Best chance of any sunshine is likely to be western ranges in the area.

Maximum wind: Southwesterly 10-15mph

Chance of cloud free mountain/hill tops above 800m: 80%, patches of low cloud in the morning will clear and likelihood will increase to 95% with good views likely.

Visibility: Generally good visibility around the ranges but perhaps moderate in the morning with patches of low cloud above 600m around the hills. These will clear with most summits remaining clear.

Temperature: **Glens:** Plus 7 rising to 16 Celsius.
At 800m: Plus 4 rising to 8 Celsius.
Freezing level: Above the summits.
